

What Sets Us Apart

Nearly Two Centuries of Command Experience: Our unmatched team brings over 195 years of combined law enforcement expertise to every case. Our roster is comprised of former Chiefs of Police, SWAT Commanders, Homicide Detectives, and specialized gang/narcotics veterans who have commanded thousands of personnel and overseen large-scale investigations.

An Arsenal of Exclusive Data: Unlike typical private investigators limited to a single public source, Raptor leverages a comprehensive data infrastructure of multiple, proprietary national databases. We cross-reference dozens of data points across every state to uncover critical intelligence that standard agencies simply cannot access.

Active Engagement & Advocacy: We are relentless advocates for our clients. We do not stop at identifying the problem; we utilize our deep law enforcement relationships and private person's arrest powers to ensure offenders are held accountable. We hand over fully complete, case-ready intelligence packets to our law enforcement partners to ensure seamless prosecution.

Total Asset Dominance: From deploying bait-wire tracking to erecting 25-foot mobile overwatch towers in the middle of a 500-acre ranch, our technological footprint is unmatched. We engineer environments where crime is virtually eliminated before a lock is ever cut.

At Raptor Investigations and Protection Services Inc. dba: Raptor Rural Crimes Investigations & Consulting, we offer a unique blend of law enforcement expertise and private investigation resources, making us a leading choice for both agricultural and non-agricultural clients.

Our Services

- **Rural Crime Investigations:** Theft, vandalism, and equipment recovery.
- **Infrastructure Analysis & Security Assessments for Farms, Ranches, and Oil & Gas Facilities.**
- **FAA part 107 Thermal Drone pilot retired law enforcement, providing advanced aerial support.**

We Offer

- **Raptor Overwatch Asset Systems:** Rapid-deployment, solar-operated mobile towers equipped with elite optics, LPR, and active law-enforcement mimicry to establish total asset dominance.
- **Rural Crimes and Infrastructure Operations:** Specialized, large-scale investigations aimed at the aggressive tracking, identification, and recovery of high-value agricultural, oil, and utility assets.
- **Complex Civil & Criminal Case Support-Term Solutions:** Supplying attorneys and corporate executives with exhaustive field investigations, witness interviews, and complete, litigation-ready intelligence packets.
- **Advanced Skip Tracing & Legal Locates:** Leveraging a multi-layered infrastructure of proprietary national databases to definitively locate fleeing targets and hidden legal assets nationwide.
- **Comprehensive Threat Assessments:** Delivering 150–200 page deep-analytic intelligence books that detail exact infrastructure vulnerabilities and engineer fail-safe physical security enhancements.
- **Law-Enforcement-Grade Aerial Surveillance:** FAA-certified, retired law enforcement drone deployments utilizing state-of-the-art thermal imaging and optics for immediate tracking and tactical perimeter overwatch.

About Us

At Raptor Investigations, we operate as a premier, privatized detective division and tactical consulting firm, not a traditional observe-and-report agency. Backed by an unmatched 195 years of combined, command-level law enforcement experience. Our tier-one roster features former Police Chiefs, SWAT Commanders, Homicide Detectives, and specialized task force veterans. We bridge the gap between private enterprise and elite law enforcement by leveraging a multi-layered infrastructure of proprietary national databases, law-enforcement-grade optics, and deep industry relationships. Our philosophy is rooted in aggressive problem-solving and total asset dominance. We don't just identify threats or sit on the sidelines; our fundamental mission is to track down hidden assets, catch offenders, and build comprehensive, litigation-ready case files. By delivering complete, actionable intelligence directly to our law enforcement partners, we ensure swift accountability and seamless prosecution. When typical agencies hit a wall, Raptor breaks through it.
